PRESIDENT'S MESSAGE

Many Thanks to All that attended our April Nuts & Dolts. If you couldn't attend..... You missed 30 Great venders and tons of great information, and TRY-ME products and a wonderful silent Auction!

Thank you to all the volunteers! We couldn't have done it with out you.

A Special shout out to Customized Catering for the Great Lunch Boxes, they were great.

Thank You to (Linda Phillips) of the TRI-Valley IPSSA for the wonderful coverage of our Nuts & Bolts yearly event.

It's May and the phones are ringing the days are longer and with your Smart phone and your Bluetooth head set, you're taking calls and picking up new customers. BUT taking the time to increase your skills and knowledge is worth coming to the meeting.

We are continuing our *Back Yard Training* at our meetings. I know we are all busy, but one night a month a couple of hours with friends, and some *Back Yard Training*... maybe it's just what you need!

See YOU there

Joe McVeigh

Be Water Aware! May is National Water Safety Month

Swimming is one of life's great pleasures. It offers many health and fitness benefits, cools you off in the summer, and provides a great opportunity to socialize with family and friends. Make sure you and yours stay safe in the water by being water aware.

Learn to swim

Swimming Lessons Save Lives.™ The best thing anyone can do to stay safe in and around the water is to learn to swim. This includes both adults and children.

Never leave children unattended

Parents are the first line of defense in keeping kids safe in the water. Never leave children unattended near water, not even for a minute. If your child's in the water, you should be too!

Read all posted signs

Follow posted safety rules and warnings. Teach kids that being safe in and around the water is a personal responsibility - yours and theirs.

Never swim alone or in unsupervised places

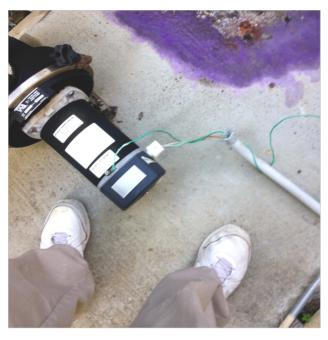

Teach your children to always swim with a buddy.

Wear a life jacket

If you or a family member is a weak or non-swimmer, wear a life vest. It's nothing to be embarrassed about and many facilities provide them at no charge.

SCP Santa Clara, 2036 Martin Ave., Santa Clara 408-327-4900 SPP Redwood City, 2692 Middlefield #H, Redwood City 650-257-8207

Not for sale on line

Introducing the newest member of the Hayward Expert Line, the **TriStar VS 900!** TriStar VS 900 is the variable-speed pump with a Viton® pump seal and a standard **three (3) year warranty** that is <u>not</u> for sale online.

EXPERT LINE

Not available for online resale

What are the Benefits of a Salt Water Pool?

Salt-water pools might conjure up visions of invigorating ocean swims, but they have little in common with the briny environment. All pools

need treatment to sanitize the water. Health threats of pool water include bacteria, viruses and other contaminants that thrive and grow if unchecked. Some swimmers who suffer side effects from traditional chlorination systems swear by the benefits of salt-water pools. Despite the benefits of salt-water pools, the methods used to sanitize them might come as a surprise to many.

Salt in Salt-Water Pools

The role of salt in salt-water pools is neither disinfection, nor improvement in buoyancy. Salt levels in pools are far below the salt concentration in ocean waters. Instead, salt acts as a continuous source of convertible chlorine.

Continuous Disinfection

Salt-water pool disinfection systems rely on chlorine to kill germs and neutralize contaminants in the water, just as traditional chlorine-based systems. A unit containing two slightly charged titanium plates allows the salt or NaCl to pass through them. In a process called electrolysis, the salt breaks down and reforms in water to form the hypochlorous acid responsible for disinfection in traditional chlorine-based systems. Because the salt is dissolved in the pool water, there is a continuous and steady supply of chlorine flowing into the pool.
